

# ADARSH SHUKLA

 +91-9696550267 | [LinkedIn](#) | [GitHub](#) | [LeetCode](#) | [Twitter](#) | [MyPortfolio](#) 

## Summary

Software Engineer with Strong Data Structures and algorithms with Good understanding of Web Technologies. And ability to write efficient code and great collaboration spirit with commitment to deadlines.

## Technical-Skills

- **Languages:** Java, HTML, CSS, Tailwind Css, JavaScript.
- **Technical Courses:** Data Structures and Algorithms, OOPS, RDBMS.
- **Frameworks:** React.js, GraphCMS, GraphQL, ChatEngine, GitHub, NodeJs.
- **DataBases:** MySql and MangoDB

## Projects

[\(Link\)](#) **Adivi** | [React.js](#), [Tailwind-Css](#), [SCSS](#), [GraphCMS](#) & [GraphQL](#)

Adivi is my dynamic and interactive personal blog website, serving as a platform where I passionately share my insights, experiences, and knowledge about Coding, Development, Linux, and the rapidly evolving landscape of upcoming technologies.

- Utilizes React.js framework for dynamic and SEO-friendly frontend.
- Employs GraphCMS and GraphQL for efficient content management.
- GraphCMS takes care of content delivery and organization.
- Implements Scss for customized and appealing styling.
- Content spans Coding Tips, Development, Linux, and upcoming technology trends.

[\(Link\)](#) **Hang-out** | [React.js](#), [CSS](#), [Cheat-Engine](#), [Hooks](#) & [Props](#)

Crafted a user-friendly chat application enabling room creation for seamless friend communication. Highlighting key features such as username/password verification, real-time message exchange, and notification alerts.

Presents a viable alternative to WhatsApp, fostering engaging and secure conversations.

- Designed a real-time chat app using React.js and Chat-Engine.
- Implemented user authentication, room creation, and notification sounds.
- Leveraged WebSocket technology for seamless communication.

[\(Link\)](#) **Dribble-Notebook** | [React.js](#), [CSS](#) & [Hooks](#) & [Props](#)

Established Dribble-Notes (An online Note taking Platform), a web platform enabling private note creation, editing, and deletion (CRUD Operations) with a minimalistic UI.

- Developed the frontend using Functional Based Components in React.js and React-Bootstrap Library.
- Successfully deployed using the Vercel CLI, showcasing adeptness in frontend and deployment technologies.

## Achievement

- Demonstrated problem-solving abilities through 300+ solutions on @LeetCode(+other platforms).
- Developed real-time chat app, personal portfolio, and coding blog showcasing skills.
- Made a personal Portfolio website using ReactJs, Css and Email.js .
- Established a personal blog on Coding and Development, showcasing valuable tips and tricks . Utilized React.js and Tailwind for frontend, while employing GraphCMS and GraphQL for backend .
- Consistently contributed to GitHub repositories, collaborating on coding skills with Java for DSA.

## Work-Experience

- Done Internship @**Code-Alpha**, Where I made trackable multi page survey form that saves the state and integrated captcha([Link](#))
- Done Internship @**CodSoft**, Where I made a portfolio site and food site with HTML, CSS and JS.([Link](#))
- Got badges on **leetcode** for consistently coding on that platform.([Link](#))

## Education

Ambalika Institute of Mgt. and Technology, Lucknow	2020-2024
<i>Bachelor of Technology in Information Technology (65%)</i>	
New S.t Angel's public School, Pratapgarh	2016-2018
<i>Intermediate School (70%)</i>
